Re: Traffic Signal Technician III-Assumption of Additional Duties

Due to the current budget restraints we have recently eliminated one (1) management position in the Traffic Division. This elimination will result in a total saving of \$69,273.89 annually. In order for the Traffic Division to have proper oversight we have incorporated additional duties and responsibilities to our Traffic Signal Technician III, and we are requesting that he be compensated for the additional duties. The Traffic Signal Technician III current salary is \$40,046.86. We are requesting that he receives additional compensation in the amount of \$4,633.21.
